NBC PROTECTIVE OVERBOOTS (NBC-P-OB)

Molded from injection bromide butyl rubber to ensure complete impermeability. Supergum high-performance NBC overboots provide total foot protection for at least 6 full hours against all known chemical warfare agents and toxic gases. Manufactured with compliance with the NATO standard AQAP-4 specifications.

Five different sizes are provided: S (small), M (medium), L (large), XL (X-large), XXL (XX-large).

The major characteristics are as follows:

1. External : Black , vacuum package
2. Material: bromide butyl rubber
3. Hardness : 53+/-5 (TYPE A)
4. Extension rate : 350%
5. Tension strength : min 80kg/cm²
6. Against organic oil: min 6 hrs when 25
7. Against ozone: min 36 hrs
8. Against chemical warfare agents: after 36hrs, the maximum penetration of HD less than 2µg/cm² (NATO standard AQAP-4).
9. Dimension

UNIT:MM

Size	A	B	C	D
S	510±5	320±5	300±5	485±20
M	520±5	330±5	300±5	535±20
L	535±5	330±5	305±5	550±20
XL	580±5	340±5	320±5	580±20
XLL	590±5	350±5	325±5	605±20
